

Map showing the distribution of student origins across the Pavia region. The map is color-coded by the number of students originating from each municipality. The legend indicates four categories: red circles for municipalities with more than 100 students, yellow circles for 51-100 students, purple circles for 11-50 students, and small red circles for municipalities with up to 10 students. A thick black dashed line marks the regional boundary. Major municipalities include Pavia, Sannazaro de' Burgondi, S. Maria della Versa, and many others in the surrounding area.
